Norman Betts
Minister
Business New Brunswick

Message from the Minister

It is my pleasure to present to you, on behalf of the Department of Business New Brunswick, the year 2001 Directory of Manufacturers and Selected Services to Industry. This publication is a listing of New Brunswick manufacturers and selected services that participated in the Department's annual survey.

The directory includes approximately 2,150 companies who I would like to thank for supplying us with information.

Business New Brunswick is committed to helping the province grow from within as well as preparing businesses to become export ready. As such, this tool will provide you with a wealth of information on what's available here in New Brunswick. The Directory is also available to external clients and it is distributed worldwide.

In order to ensure maximum exposure of New Brunswick businesses, we also share the directory information with our federal partners at Industry Canada. Therefore, participating New Brunswick companies and their products are better known, and have more opportunities across the globe as well as across the street.

I would encourage you to visit our provincial web site at http://www.gnb.ca to see how we are working to build a stronger New Brunswick.

HOW TO USE THE DIRECTORY

The directory consists of four major sections followed by two appendices:

SECTION 1
NEW BRUNSWICK PRODUCTS/SELECTED SERVICES ALPHABETICAL CLASSIFICATION

Manufactured products and selected services in the province are itemized alphabetically in this section. Every product/service is followed by a list of the appropriate enterprise names. Details with respect to the enterprises so listed are not repeated in this section, but may be readily obtained by reference to Section 2.

SECTION 2
NEW BRUNSWICK ENTERPRISES ALPHABETICAL CLASSIFICATION

New Brunswick enterprises are listed alphabetically by establishment name. The name is followed by the mailing address and then the plant location when it differs from the former. After this the contact name, telephone, fax, e-mail and internet addresses are indicated. Following is a list of products/selected services. Then the North American Industrial Classification System (NAICS) is listed indicating the main industry assigned to the establishment. The current employment completes the enterprise data.

Inquiries for a listing of firms by specific industry groups will be handled by the Department of Business New Brunswick upon request.

SECTION 3
NEW BRUNSWICK ENTERPRISES COUNTY CLASSIFICATION

The Province of New Brunswick is divided into 15 counties: Albert, Carleton, Charlotte, Gloucester, Kent, Kings, Madawaska, Northumberland, Queens, Restigouche, Saint John, Sunbury, Victoria, Westmorland and York.

In this section every county constitutes a sub-section. Municipalities where establishments may be located are listed alphabetically within each sub-section. Establishments located in each municipality are grouped alphabetically.

For supplementary reference, Appendix 2 contains a municipal population index and a map of New Brunswick indicating the 15 counties.

SECTION 4
NEW BRUNSWICK ENTERPRISES INDUSTRIAL PARKS CLASSIFICATION

The 52 industrial parks where establishments are located are listed alphabetically in this section. The location of these parks is indicated and enterprises located therein are listed alphabetically.

New Brunswick is a province of Canada, strategically located on the east coast of North America adjacent to some of the best markets in the world.
